WORK EXPERIENCE

Cyncly – Senior UI UX Engineer — Bengaluru, India
Mar 2024 – Present — AI + SaaS design for kitchen, bathroom & interior products

- Lead **AI-driven design experiences** such as **Auto Design, Kitchen GPT, Inspire AI, Layout Intelligence**.
- Built scalable **design libraries** ensuring consistent UX across SaaS platforms.
- Designed **AI chat-based customization flows**, improving engagement and reducing friction for brands like **IKEA, Lowe's, Electrolux**.
- Conducted usability testing and validation sessions with **PM/PO/Engineering** in agile sprints to refine UX and improve delivery.

ROKiT Group – Product, UI, UX & Design — Remote (Los Angeles, USA)
May 2021 – Mar 2024

- Led **product and UX strategy** for SaaS and consumer products, aligning design with business vision.
- Collaborated with **executives (VP, CEO, stakeholders)** to define design direction and maintain UX consistency.
- Designed **pitch decks, investor materials, and MVP prototypes** to support funding and product launches.

Freelancing – Web Development, Product Design & UX — Global Clients
Mar 2019 – Mar 2024

- Delivered **40+ digital products** for startups and enterprises in e-commerce, education, and tech.
- Specialized in **UI/UX, responsive design, branding, and front-end development**.
- Provided **UX consulting, prototypes, and design integration** for SaaS clients.

Irbat Innovation – UI UX Designer — New Delhi, India
Jun 2019 – May 2021

- Designed interfaces for **e-commerce, fintech, CRM, and enterprise** products from concept to delivery.
- Collaborated with developers and stakeholders for **usability testing** and workflow improvements.
